

## Connector Help Sheet: Industrial

This list is designed to help match you to your perfect connector!

You can use this help sheet as a checklist for yourself or as part of a discussion with your Business Manager.

- Do you have wire material restrictions? (e.g. Do you need to ensure the connector is protected from corroding)  \_\_\_\_\_
- Aesthetics- do you need the connector to be a specific colour to help with identification?  \_\_\_\_\_
- Ergonomics- will users be wearing gloves and/or restrictive clothing that requires an ease of use connector?  \_\_\_\_\_
- Do you require the connector to be customised in any way? (e.g. as part of a cable assembly)  \_\_\_\_\_
- Environmental Requirements: does your connector need to be IP rated to withstand extreme conditions? (e.g. a corrosive, wet, high-temperature, or dusty environment)  \_\_\_\_\_
- Will your connector be exposed to vibration?  \_\_\_\_\_
