

Conflict Materials Policy

Declaration on Conflict-Free Minerals

Inelco Hunter Ltd are expected to supply materials that are “DRC conflict-free”.

“DRC conflict-free” means:

1) Any “conflict minerals” (gold, columbite-tantalite, also known as coltan, cassiterite, wolframite, or their derivatives tin, tantalum or tungsten (collectively the “3TGs”) necessary to the functionality or production of supplied materials do not directly or indirectly finance armed groups through mining or mineral trading in the Democratic Republic of Congo or an adjoining country,

or

2) Any 3TGs in supplied materials are from recycled or scrap sources.

Conflict minerals from “recycled or scrap sources” if they are from recycled metals, which are reclaimed from end-user or post-consumer products, or scrap processed metals created during product manufacturing are not included in the definition.

Recycled metal includes excess, obsolete, defective and scrap metal materials that contain refined or processed metals that are appropriate to recycle in the production of tin, tantalum, tungsten, and/or gold.

Minerals partially processed, unprocessed, or a “bi-product” from another ore are not included in the definition of recycled metal.

Inelco Hunter Ltd are expected to adopt policies and management systems with respect to conflict minerals and to require their suppliers to adopt similar policies and systems.

These principles are documented and made public to our employees, group members and other parties concerned.
