

Inelco Hunter Limited

specialist supplier of electronic components & solutions

Complete solutions that save time and money

The unique Higher Level Assembly (HLA) service from Inelco Hunter

- ✓ Complete one-stop-shop service from a single supplier
- ✓ Easier, streamlined implementation
- ✓ Shorter supply chain, lower cost of acquisition

Inelco Hunter Limited

specialist supplier of electronic components & solutions

Choose a one-stop-shop and reap the rewards

Fan implementation just got easier and more streamlined

The innovative new concept is called Higher Level Assembly, or HLA. It provides a one-stop-shop allowing you to plug in a cost-effective solution while shortening your supply chain and reducing your cost of acquisition.

The proposition is simple and potent: why buy a fan when you can source a complete, bespoke service? And why spend time, money and resources managing multiple suppliers when you can choose a comprehensive service from a single supplier with proven manufacturing quality?

That's the beauty of Higher Level Assembly. As its name suggests, HLA is the assembly of any number of component parts into a complete or near complete system, finished product or sub level assembly.

At a stroke, it frees you from the chore and time-consuming expense of sourcing, buying, storing and assembling many different components.

You benefit from greater efficiency, quicker implementation and reduced overhead.

Inelco Hunter Limited

specialist supplier of electronic components & solutions

Shorter supply chain, lower cost

HLA is a comprehensive solution that enables you to shorten your supply chain and lower your total cost of acquisition.

It is founded on our comprehensive UK design and manufacturing capabilities that span sheet metal fabrication, cable assembly, boxbuild, assembly and test. Our dedicated team of engineers are adept in mechanical design, electrical and electronic design and production engineering.

HLA production processes tick all the boxes:

- ✓ Sheet metal fabrication
- ✓ Automatic tube and wire cutting
- ✓ Metal machining
- ✓ MiG & TiG Welding
- ✓ Harness build
- ✓ Painting and finishing
- ✓ Lead free soldering
- ✓ Plastic moulding
- ✓ Automatic crimping

Contract manufacture covers procurement, production build and customer logistics.

Already, HLA is proving a hit. Make sure you take advantage of the opportunity. Take some time to consider all the elements that you need to deal with when implementing a fan upgrade – then speak to us to see if our one-stop-shop solution is the answer.

HLA in action

Case study	
Previous approach:	Purchasing from five vendors incurring admin, labour and component costs. Total unit cost £170.
HLA solution:	Instead of just supplying a fan, Inelco Hunter is supplying a complete, bespoke sub-assembly with controller and pressure sensor.
HLA quality:	Fully tested by Inelco Hunter to ensure zero failures on site.
Result:	30% savings on components and labour and a totally streamlined process.
